

Small Boating Fund

Application Form

MAST
MARINE and SAFETY TASMANIA
making boating better

About the Fund

Under the Small Boating Fund (SBF) MAST provides \$350,000 per annum to fund smaller projects and safety and navigation initiatives. Applications may be made anytime throughout the year. MAST will assess each application against the criteria below and if approved, the project may commence immediately subject to planning or any other approvals that may be required.

Who can apply?

Any individual, council, organisation, registered club or statutory body.

- Applications that do not meet the application criteria may not be accepted.

Application criteria

- Project design will need to comply with the relevant Australian Standard and be proportional to demand. Engineering advice should be included for larger projects where possible.
- Boating facilities to be accessible by the public at all times.
- Facilities do not include public amenities (eg toilet blocks, car parking, or access roads).
- All projects require an owner who will be responsible for any ongoing management and maintenance of the infrastructure.
- Specify the estimated cost of work where possible.
- Specify the amount requested from Small Boating Fund and owner's or other funding contribution or in-kind support towards the project
- Project will need to show how any infrastructure, services or amenities will benefit the safety and enjoyment of recreational boating.

Assessment criteria

In assessing the applications received, the following is considered by MAST:

- Established demand for the boating facility
- Contribution the project will make to recreational boating in Tasmania, the region and the immediate area
- Enhancement of boating safety and enjoyment
- Economic viability of the project
- Funding or in-kind support from other sources
- Support of application from existing owner
- Proximity to other recreational boating facilities that may have been upgraded previously.
- Relevant planning and development requirements
- Relevant Australian Standards
- Ownership of the facility
- Expected approval processes
